Music is at the heart of life. We dance to music and music tells our feelings. It changes feelings, too. It can make us sad and it can make us happy. It can make us quiet when we are angry. It can even make us feel better when we are sick. Music is amazing!

It is ancient, too. Thousands of years ago, people used to sing folk songs about their simple lives. And from these came much modern music – rock music, for example, in America in the 1950s.

Classical Arab music developed many centuries ago from the folk music of many cultures and from their poems. People used to put these to music, so singing was very important – and still is. People love great singers like Oum Kalthoum and Farid Al-Atrash.
